

AKS - Examples

 [Azure-Samples/aks-load-testing](#)

[Lab 1: Plan the Migration](#) - Java Microservices Lab with Monitoring and YAML files

 [Deploy Microservices into Cloud Azure Kubernetes Service \(AKS\) with using Azure Container Registry...](#)

 [Azure-Samples/aks-store-demo](#)

 [Getting started with GitOps, Argo, and Azure Kubernetes Service](#) - ArgoCD example of GuestBook via UI - Same can be automated with YAML files in GitHub and connecting to GitHub repo.

 [Deploy Your Application on AKS with Azure DevOps and ArgoCD](#) - This is a good Example of ArgoCD with Microservices / base overlay concept / azure devops pipeline as well. P0

 [How to Install ArgoCD on an AKS Cluster and Sync Cluster Status With a Kubernetes Manifest Repository](#) - ToDo app - simple - argocd application
